

# EXAM SCHEDULE MANAGEMENT SYSTEM & ATTENDANCE SYSTEM

BY WEB-TECHIES

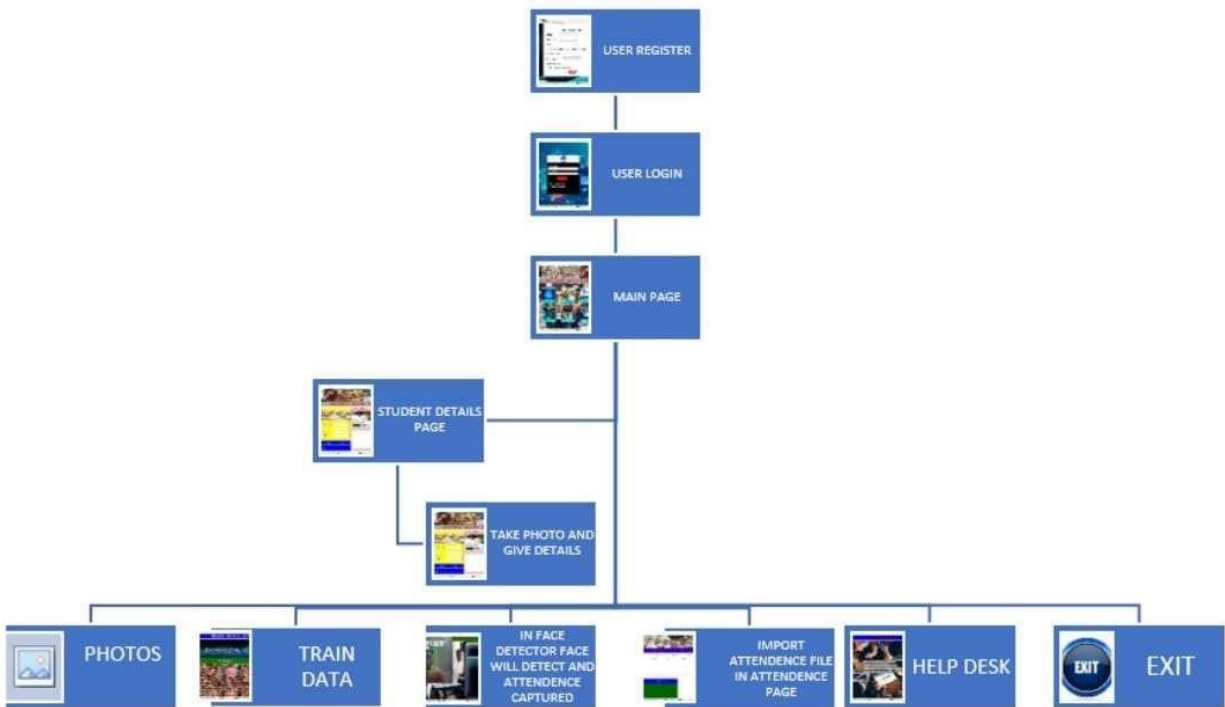

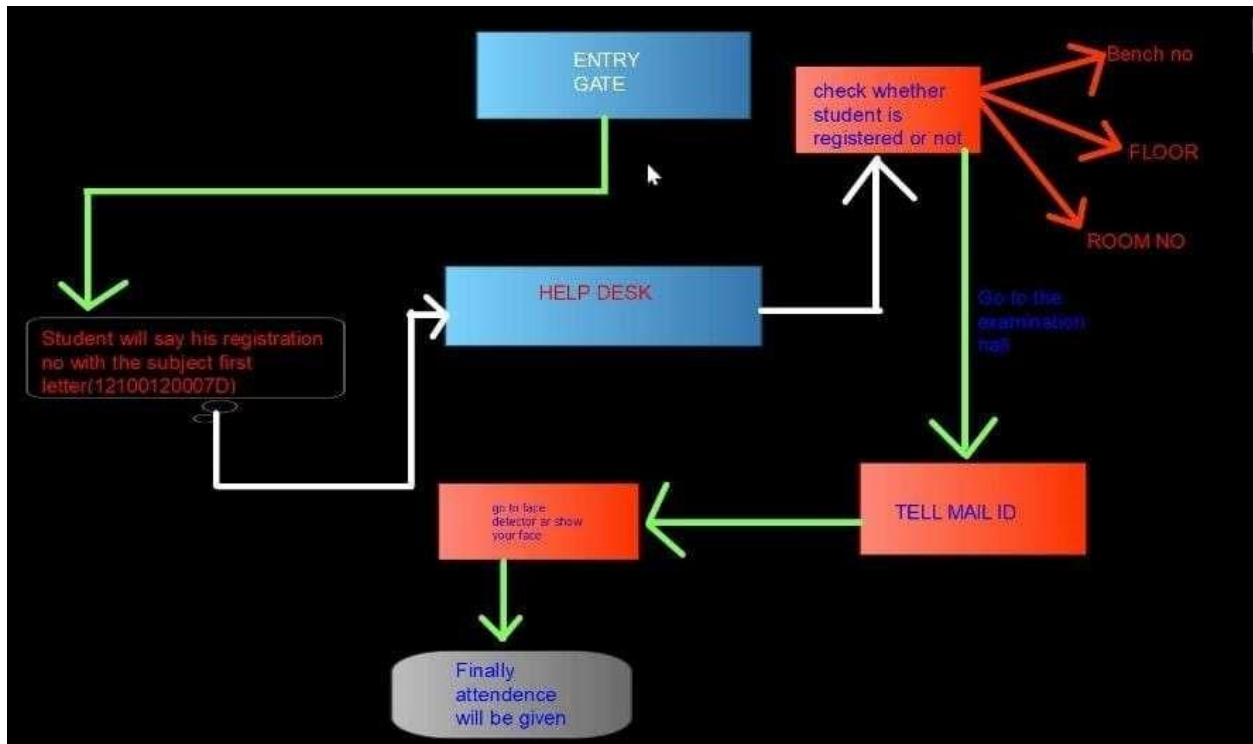

## DESCRIPTION:

We have make two portals one is face recognition attendance system and exam schedule management system In Face Recognition

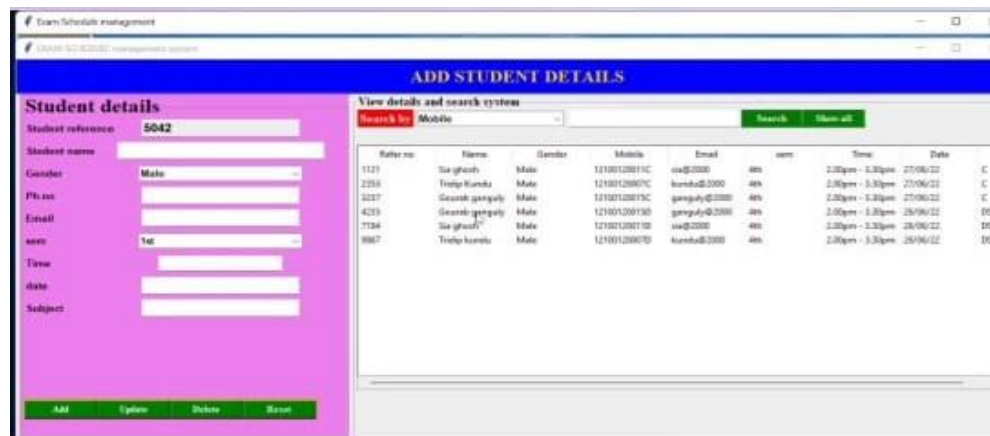

Attendance System user have to register then login to our page after that student have to give there basic details and photo in student details page after that teacher will train all the data in train data part, then student can give attendance in Face detect part. For further teacher can import or export attendance sheet through Attendance page.

For the Exam schedule management system, for only scheduled exam days, students have to enter through entry gate and then to helpdesk where they can collect such details as room no., bench id, subject and fees payments for exams etc. Then they have to go for Face recognition system on the basis of previous record system, then they can get the particular attendance and sit for exam.

# Flow Chart:

# Test Results:

# Application:
